National Aeronautics and
Space Administration

Connect the dots to find the Dawn spacecraft

When done, you can color the solar arrays (wings) dark blue.

Dawn is the ninth Discovery mission scheduled for funding from NASA's Science Mission Directorate and is a collaborative partnership made up of the University of California, Los Angeles; Jet Propulsion Laboratory; Orbital Sciences Corporation; Los Alamos National Laboratory; German Space Center; Max Planck Institute for Solar System Research; and Italian Space Agency. Dawn education materials are developed under contract by Mid-continent Research for Education and Learning (McREL), Aurora, CO.
